Restore College Respectability

When the State Board of College Trustees meets next week in Los Angeles, Governor Reagan will be there. It will be the first time since his election that he has had majority control of the Board.

If he makes proper decisions some of the nonsense that has crept into the college way of life will begin to decline.

J. W. Gilbraugh, Professor of Education at San Jose State made a perceptive study of some of the problems. He says that Gov. Reagan now has the means to deliver on his promise to restore respectability and responsibility to college campuses.

While his views on higher education have had the support of California voters, his hands have been tied by some trustee holdovers appointed by his predecessor, Professor Gilbraugh says. His report:

With two new appointments to the Board of State College Trustees, Governor Reagan can institute meaningful reforms on State College campuses. His statement that campus turmoil must be resolved at the campus level has hit the nail dead center.

Whether responsible campus behavior will materialize depends entirely on responsible performance by the Board of State College Trustees. Reforms in the system of management must be mandated at the Trustee level before significant improvements can occur. To permit state college faculty members and students to virtually choose college presidents and influence the appointments of administrators at other levels is to perpetuate an unbridled reign of anarchy.

This system has had a fair trial and it is obvious that it is a dismal failure.

It is not too late for Trustees to re-assume control of the California State College System through the naming of college presidents who are responsive to the faculties and students — but not responsible to them. The flow of authority trustees whose responsibilities are prescribed by law. By a power grab the faculties have virtually reversed the flow of authority by establishing themselves at the base of power. While the Trustees function as a policy-making body — the executive function, the carrying out and implementing of the board's policies — is delegated to the Chancellor, College Presidents and their administrative subordinates.

The Chancellor and College Presidents serve at the pleasure of the Board of Trustees. But to permit faculty members to serve on presidential selection committees is to make the college president and his administrative staff beholden and subservient to them. Thus, the carrying out of Trustee policy often misfires when a college president is placed on the sacrificial altar of conflict between the public at large and a tenured college faculty.

Time and the public mood are right for courageous Trustee decisions which would return the State College System to its proper orbit in relation to the rest of society.

As Governor Reagan says, this has to be done at the local level.

What he didn't say, but surely knows, is that such reform can be achieved only by chief college administrators who are not hamstringed before they start by trustee- or chancellor-appointed faculty committees.

Or by local faculty committees and councils that have tended to gut presidential authority.

One major reform which must be given high priority on a local campus if Governor Reagan's philosophy is to materialize, is a proper division of labor.

Each employee on the state's payroll must be assigned to the job which he does best.

And he must have obstacles and obstructions removed which tend to keep him from delivering his top-level performance.

An incredible paradox has developed in the control of higher education in recent years. Distinguished scientists, mathematicians, engineers, and other educators have been employed to teach in the colleges and universities. But instead of spending their time educating college youth, their time and energies are siphoned off by college committees dealing with the administration of the college. In their respective fields of specialization they are professionals. But in the field of administration most of them are amateurs.

The rest duds. Dr. Gilbraugh, who is formerly a college Dean, experienced many wasted hours listening to an English professor who had been elected to an Academic Senate expound on punctuation and syntax of resolutions and senate communications. With a compulsive urge to talk, the sum total of his contribution was restricted to punctuation.

Understanding of college administration was outside his narrow field of specialization, and consequently beyond his comprehension.

What occurs in a college or university when an entire senate or academic council is made up of such subject-matter specialists? That question's answer is drummed out daily by the news media. Campus violence, subversion and anarchy comprise a major portion of the daily news fare.

Governor Reagan now has the rare opportunity to reverse the tragic national trend that has swept across the nation's campuses.

It can be done by removing the administrative steering wheels from the chairs of tenured faculty members and replacing them with academic steering wheels.

And by restoring the administrative steering wheels to the chairs of duly constituted college administrators who are responsive to — but not responsible to the faculties.

Name Calling Fun

Picturesque name-calling is not dead! It isn't even reserved for crotchety old editors who feel called upon to assail some miscreant who probably deserves more than a name-calling.

Now comes a San Diego County Planning Commissioner—Ross Daily of Fallbrook — to join the "sharp tongue" corps. It happened when the Planning Department staff had offered new ground rules for lot-splitting that would raise the cost of such splitting astronomically.

Commissioner Daily didn't like plan.

"Say some fellow has 40 acres a mile from a country road. Is he going to have to get a 52-foot access road easement across other property where the easement is only 30 or so feet wide?" he asked the staff.

Richard Empey, special projects chief, said that the requirement would be reasonable and that such case would be

Van Deerlin Due In L.G.

Congressman Lionel Van Deerlin will be in Lemon Grove April 20.

He will meet with constituents at the office of this newspaper at 11 a.m. The address is 7834 Lester st., Lemon Grove.

It is not necessary to make an appointment. He will spend a full hour discussing individual problems with local residents who want to meet the Congressman face-to-face.

Following the meeting, he will address the Lemon Grove Rotary Club at the L. G. Bowlero at noon, according to Thomas S. Clayton, president. He will be presented by Max Goodwin, local publisher.

Van Deerlin will discuss some of the Congressional Bills he has authored, Clayton said.

L.G. Jr. High Band To Compete In Maytime Event

Robert Jenner, chairman of the 1970 23rd Annual Maytime Band Review announced that the Lemon Grove Junior High School Band will enter competition in the National City parade which will take place on Saturday, May 2, at 10:30 a.m.

Harry G. Weisgerber is the director of the band, and Colleen O'Connor is the Twirling Solo Majorette. The band has been in existence for 20 years, and has many awards to its name. Last year, they won First Place in the Class B-1 division at the Maytime Band Review, and have won the MCRD Sweepstakes in 1961, 1962, 1963, and 1964. They have been rated a superior band each year since 1958, and won another superior rating this year.

Each year National City looks forward to hosting more than 6,000 students from junior and senior high schools throughout Southern California, and an estimated crowd of 150,000 spectators who line the parade route to view the keen competitive spirit exhibited by these young musicians. The Maytime Band Review is sponsored by the City and the Chamber of Commerce as a tribute to band music and to young musicians in particular.

Tax Lines Now Open

Time is running out for second section payment of property taxes.

Penalty date is April 10 at 5 p.m. — just three weeks away.

The County Tax Collector said today that he would put all available personnel of his office on telephone duty to supply answers for those who have last minute questions about tax bills.

The notice is issued, he said, because phones are usually overcrowded the last few days and some taxpayers are pushed into the penalty period by waiting too long.

County to Sound Out Opinions on SV Plan

Spring Valley residents should mark April 2 on their calendars.

That's the day the community will have a hearing on opinions about a comprehensive plan for the future.

The San Diego County Planning Department will hold a public meeting with the citizens to determine if there is sufficient interest to commence a community planning program for Spring Valley.

The meeting is scheduled April 2 at 7:30 p.m. at Mount Miguel High School's cafeteria. The school is located at 1809 Sweetwater rd.

The San Diego County Board of Supervisors recently authorized a citizens' committee

PacTel Asks 37% Rate Increase; Home Phones Would Hike \$1.85

Pacific Telephone has proposed increases in Lemon Grove and Spring Valley residential and business rates as part of a statewide rate application filed this week in San Francisco.

The application, if approved in totality by the California Public Utilities Commission, would boost telephone company revenues \$195 million annually. It would increase residential rates by 37% and business rates by 37%. On one party lines the increase amounts to 37 percent for home phone: 17% for business.

Telephone rates were last increased throughout the state two years ago when the CPUC granted the company a \$50 million annual increase compared to the \$181 million the

utility had asked. As a result of this week's filing, San Diego County single-party residential rates would be increased \$1.85 per month, while business service rates fluctuate.

If approved, single-party residential rates in Lemon Grove and Spring Valley, both served by the La Mesa exchange, would be increased from \$4.90 to \$6.75. Business rates in those exchanges would vary according to the type of service the customer receives. Individual flat line rates would be increased from \$14.50 to \$18.05, while those with individual line message rate service would have their basic monthly phone bill increased from \$5.25 to \$9.10.

Communities served by these two exchanges include,

in addition to El Cajon and La Mesa, Lakeside, Lemon Grove and Spring Valley.

Further east, in Jacumba, Pine Valley and Campo, single-party residential rates would be increased from \$4.75 to \$6.60 and business rates from \$9 to \$12.80. In Dulzura, residential rates and business rates would be the same as those in El Cajon.

Quirk pointed out that the company is presently allowed by the PUC to earn a 6.9 percent rate of return — to 1969 the company achieved a 6.3 percent rate of return — which does not enable the utility to generate enough revenue to keep pace with growing demands.

Quirk added that in the rate application filed this week, the company sought a rate of

return in the range of 8.5 to 9 percent.

Quirk pointed out that the company is faced not only with keeping abreast with spiraling state growth but also with modernizing its operation to provide for the introduction of sophisticated telephonic services.

While the company has centered its proposal for greater revenue around basic service rate increases (\$164.4 million of the \$195 million total), increases also are sought for certain other customer services.

Among them is a proposed boost in the rates for connecting a phone in both homes and businesses. The company now charges \$10 for a home connection, but the new charge would be \$13. Business rates for the same service would be increased from \$15 to \$18.

Extension connection charge would be increased from \$6 to \$7 for businesses and from \$5 to \$6 for homes.

Quirk pointed out, however, the company also has asked a reduction of \$2.196 million intrastate message toll (long distance) service rates, centered around a customer-dial schedule.

"We believe that our overall rate application, while admittedly large, is nevertheless needed if we intend to maintain a high standard of service," Quirk concluded.

Just One Theft

Just one robbery of substantial size turned up on the sheriff's blotter last week.

That occurred between March 10 and 11 at the home of Walter D. St. Clair, 10495 Rancho rd. in Casa de Oro.

A carburetor and ignition worth about \$225 were stolen.

LG Fire Report

The Lemon Grove Fire Department reports a "light" week for March 9-16, with two fire calls and three rescue calls. Here are the fire calls, both due to television faults:

March 10 at 11:10 p.m., to 2015 Dayton. The television set of C. H. Ladding, was destroyed in the amount of about \$25, due to an overheated transformer.

March 15, at 12:36 p.m. Firemen went to 2230 Bonita, where the television set of J. Youhouse, shorted out, due to an overheated transformer, but no fire resulted.

RESCUES

March 9, at 6:25 p.m. Tom Darnell, 78, of 2734 Citronella was given oxygen and ordered to Grossmont Hospital, due to illness.

March 13, there were two calls: At 11:10 a.m. rescuers went to 2835 Massachusetts and found John Farnan, 64, possibly D.O.A.; and at 12:10 p.m., rescuers went to Cresta Convallescent Hospital to administer oxygen to Hilda Corneliussen, 88, for a possible stroke. She was not moved, and reported improved later.

COUNCILMAN MORROW

Floyd Morrow Drops Hat In Race For D.A.

San Diego City Councilman Floyd Morrow has announced his candidacy for District Attorney of San Diego County.

The 37-year-old attorney, a former San Diego Deputy City Attorney, said he would stress his diverse background and experience as a major part of his campaign.

Morrow won a landslide (75%) victory in his bid for a second term on the San Diego City Council in the November elections. He has practiced law for 10 years. He served four years on the legal staff of Ryan Aeronautical Company, two years as a Deputy City Attorney, and five years in his own law firm. He also taught Business Law and Economics at San Diego City College and Mesa College.

"One of my major goals, if elected, is to establish a special consumer fraud unit within the District Attorney's office. The San Diego consumer has been the forgotten man for too long. There are many laws on the books to protect consumers, but there has been a marked absence of effort by either the present administrations of the D.A.'s or U.S. Attorney's offices to enforce these laws."

Speaking to the issue of law and order, Morrow said: "Any civilized society must maintain law and order to survive, however, to be a viable society, it must administer those laws and maintain its order with justice."

Many dictators have maintained strict order under rigid laws, but, with very little observance of justice. Law and order is not a political issue between the various candidates, since all of us are bound by the oath and the very nature of the Office to enforce the law with every tool at our disposal.

Councilman Morrow attended the University of Texas receiving a Bachelor of Business Degree and Law Degree. He is a member of the Texas, California, and Local Bar Associations.

SIGNS OF THE TIMES — Workmen go about the chore of putting up the new sign for HARRIS HOUSE Fine Furniture. Long known as Red's Western Auto, the store, run by Red Harris, is placing ever increasing emphasis on its complete line of fine furniture at outstanding prices. Normally low prices

Assn. Plans Biggest and Best Grove 'Old Time Days' Ever

The search for the oldest native Lemon Grove citizen still residing in the community is being continued by the Lemon Grove Old Time Days Association.

Plan discussed at the group's meeting Tuesday night call for this honored resident to be present at the Kickoff Dinner May 2 and to ride in the May 23 parade in the oldest car available.

The Kickoff dinner will be the scene of great hilarity with such fine entertainment

planned as: Ron Mix, parade Grand Marshal as guest speaker; music by the well known American Legion Auxiliary Kitchen Band of El Cajon; the mystifying magic of Lemon Grove's own Harold The Terrible; and a chorus number by the famed Lemonettes.

The Lemonettes will be extremely busy between now and Old Time Days. They are scheduled to appear in Ernie Meyer "World's Worst Parade", April 12, The Lakeside Family Fair and Rodeo Parade and the Armed Forces Day Parade in addition to the choreography at the Kickoff Dinner and an appearance in the Old Time Days Parade.

The "girls" in the Lemonettes are busy practicing for the review and adding new wrinkles, not to their faces, but to their parade routine. Word is out that, in addition to Mr. and Mrs. Lemon there will be a tiny addition and one and all are urged to watch for the Yellow Baby Buggy and The Lemon Drip Kid.

More than 25 units have already returned their parade entry forms. The list includes many service club entries, the Lions, Kiwanis, Rotary and others. It also includes the famous Ozzies Marching Band and the highly rated Mount Miguel High School Marching Band. In addition the well-known Al Bahr Shrine Motorcycle Drill Team has indicated it will be present.

Colorful bumper stickers and window posters are being

printed and will soon be seen around town. The stickers will not be denied anyone who wants one, but a small donation to defray the printing costs would be greatly appreciated.

According to the Parade Committee, indications are the parade will far exceed the 96 entries in last year's extravaganza. In fact, at the rate of growth indicated, next year's parade will probably have to be limited in size. One suggested plan is to make it strictly an invitational affair.

The Old Time Days Association will hold its next meeting Tuesday, 7:30 p.m. in the Chamber of Commerce office. All interested parties are invited to attend.

Unification Struggle Looms

A movement is underway to split the Grossmont High School District into several small districts.

It's all a matter of unification with elementary school boards. Those boards generally favor unification proposals that would split the high school district.

The high school board favors unification if the nine elementary districts are also unified.

A vote four years ago, favoring that sort of unification, failed at the polls.

The one-district plan, even though defeated, remains the only proposal which has been approved by the State Board of Education.

Unless different proposals are submitted, the mandatory vote in 1972 will again be on the one-district plan.

Elementary boards are now in the process of contacting County School Supt. Ted Dixon to urge the study of all alternatives to one-district consolidation.

High school trustees, meanwhile, authorized Dr. Austin Sellery, district superintendent,

to write a letter to Dixon recounting their reservations about a possible split.

Sellery said his letter will ask the county board of education to update information regarding one-district unification.

The Grossmont board feels that the one-district plan provides the best system of education, he said.

Sellery cited such district-wide programs as the vocational program at Santana High and a law enforcement course slated at Grossmont High next year.

New Schedule Set For Covenant Church

Two Sunday morning services are on the new schedule for Mt. Miguel Covenant Church at Spring Valley. The pastor, Rev. Donald Sands, states that the new additional services are the result of growth beyond the capacity of the sanctuary.

Cancer Society Not Known, Says Reader

Dear Editor:

There is an organization in San Diego that people do not know enough about. It is the American Cancer Society. Too many cancer patients are denied help simply because they do not know help is available.

There are all sorts of equipment, from hospital beds and wheelchairs to suction machines and bandages free to cancer patients who need them. Also, up to \$15 per month in pain-relieving drugs can be paid by the Cancer Society.

In addition, there are many other services, one of which is transportation. A group called "Free Wheelers" drives people to doctors or for treatments when they have no other transportation. This is an area where volunteers are always needed and anyone interested in helping is urged to call the American Cancer Society.

Anyone who is afflicted with cancer may call the San Diego chapter of the American Cancer Society — 234-8481 — and receive help and support.

'Calvary' Theme For Full Week Says Dr. Chase

A week of preaching services in preparation for Easter is planned by the Lemon Grove Christian church, 6970 San Miguel ave.

Chase, the church's pastor. Jesus died that we might have: "a New Demonstration; a New Destiny; a New Deliverance; a New Dynamic, and a New Desire," will be specific topics.

The concluding sermon will be "Christ Died to Establish a New Dominion."

The Sunday service begins the third year of Dr. Chase's ministry here. During the past two years the congregation purchased the 3.8 acre site on which the new building was erected and furnished. Invitations to attend the services are being delivered to 600 residents of the community, he said.

Let no one imagine that it is a strained and unnatural thing for one to pray. The contrary is much closer to the fact. It is for more unnatural for one not to pray. Prayer is one of the most natural of human instincts. Prayer is man's response to the divine will.

CONCERT SLATED— Norman Greenbaum, starting to make it with his recent hit "Spirit In The Sky," will appear with the Moody Blues and Cold Blood in concert March 27 at the San Diego Sports Arena. Greenbaum's single is high on the Top-40 charts while his album of the same name is receiving FM attention.

Moodys, Greenbaum Slated for Concert

The Moody Blues, Norman Greenbaum and Cold Blood are scheduled for concert here March 27.

The performance is slated at 8:30 p.m. in the San Diego Sports Arena.

The Moodys claim to fame is a combination of classical theme with rock vocals. The group had a hit single out in the early Beatle days and faded into obscurity until they hit on their new formula.

Using the London Festival Orchestra for backing, the Moodys released a landmark album, Days of Future Passed, featuring the track "Nights In White Satin."

The album was a huge success and the group followed up with more recordings in the same vein.

Norman Greenbaum is a newcomer, relatively, to the

scene. As leader of the Dr. West's Medicine Show and Junk Band a few years back, he had a mild hit single.

The band split, like most groups, and Greenbaum made his way to northern California. He settled in Petaluma and wrote songs.

It wasn't long before he followed up with a solo album, Spirit In The Sky. The recently-released LP is being well-received and has been given warm reviews.

Cold Blood is a San Francisco group, featuring a bluesy female lead singer.

College Presents 'Lion In Winter'

The Southwestern College Drama department will present "The Lion In Winter," a classical medieval comedy by James Goldman for three more performances through March 21.

The play will be staged in Mayan Hall with curtain time at 8 p.m.

The plot deals with a power struggle for the Crown of England and a romantic rivalry for the hand of a princess.

General admission is \$1 for adults, 50 cents for students and children, and a special group rate of 50 cents for parties of 20 or more people.

Reservations and tickets can be obtained from the ASO Finance Office, or at the box office the night of the performance.

10 Years After, Eric Burdon Due

Ten Years After, a band that can best be described as "pure energy," will appear in San Diego Friday night at the Convention Hall.

The English blues-rock group will share the bill with Eric Burdon and War at 8:30 p.m.

Ten Years After plays fast and furious and is guaranteed to leave an audience limp after the performance.

Alvin does the lead vocals, backed by his own lead guitar, and Leo Lyons on bass, Ric Lee on percussion, and Chick Churchill on organ.

Eric Burdon was first famous as leader of the Animals, one of the first British rock groups to make it big in the mid-60's.

Since then, the English singer has gone through numerous personnel changes and now has formed a new batch of musicians.

Tickets are on sale at the Civic Theatre Box Office, and all Highlander and Metro Ticket Agencies. They're priced at \$3, \$4 and \$5.

Matadors Schedule Cord Drama

Students of Mount Miguel High School once again arise and bear their masks, as the drama department performs The Silver Cord, March 19, and 21, in the school cafeteria.

The dramatic production involves a dominate mother, played by Linda Schmidt, who has been deprived of a love-life in her marriage. She turns to her two sons, therefore, for romantic fulfillment.

In the course of the play she discovers she has lost her eldest son, David, portrayed by Don Carlson, to Christina, played by Pam Adams, a young woman whom he had met and married while on a two-year trip abroad. Realizing this, the mother then turns to her youngest son, Robin, performed by Rex Kennedy, for comfort.

Robin's mother is successful in breaking his engagement to his fiancée, Hester, played by Renee Welch. The question posed at the end of the play is, can the mother successfully break up the marriage between David and Christina as well?

"This production will be the most provocative of Mount Miguel's drama season. The play carefully demonstrates the delicate line between parental dominance and filial gratitude. This play is not only intended to be entertaining, but instructive," promises director John Adams. "Today, psychologists put a great deal of emphasis on the role of parental dominance or lack of it in the emotional and moral problems of our society."

The Silver Cord will be performed two nights, at 8 p.m. Student tickets are 50c, adults \$1.

College Has Two Films

Grossmont College will open a two-part swashbuckler film series with a double feature when "The Black Swan" and "The Sea Hawk" are screened at 7 p.m. tonight in the Fine Arts Lecture Hall.

The public is invited to view these classic films of the sea. The price of admission is 75 cents with tickets available at the door. Part two of the swashbuckling series will be presented on Thursday, April 2 when the "Prisoner of Zenda" and "Don Juan" are screened.

Dance Company At Grossmont

The Associated Students of Grossmont College will present Repertory Dance Theatre, the professional modern dance company-in-residence at the University of Utah in a two-hour concert at 8 p.m. Saturday, in the college gymnasium.

Repertory Dance Theatre is America's only repertory modern dance company that can presently perform the works of over twenty different choreographers.

The company, composed of twelve creative and performing artists, was organized in 1966 by Virginia Tanner at the University of Utah through a grant from the Rockefeller Foundation.

Listing over forty works by more than twenty choreographers, their repertoire ranges from the classics of modern dance to the most avant-garde experimentation.

Working the year around, Repertory Dance Theatre makes its home at the University of Utah in Salt Lake City and is the only modern dance company to be in permanent residence at a university. Of the twelve members, six are graduates of the University of Utah.

The public is invited to attend this program performed by the Repertory Dance Theatre in a variety of works unequalled by any other company. The price of admission is \$3 and \$2 with tickets available at the door.

Cellist To Perform

The Mesa College Associated Students in cooperation with the College Music Department are sponsoring a recital by Milos Sadlo, internationally acclaimed Czech cellist, Tuesday, March 31.

The concert will be given at Noon and again at 12:30 in Room C-116, Music Building. There is no admission charge. The public is invited to attend.

One-Man Art Show

A special one-man art show of one of the French traditionalists, Leon Durand Bonnet (1868-1936) will be held at Southwestern College Art Gallery through March 22.

The Gallery hours are: Monday through Friday, 10 a.m. to 2 p.m.; Sundays, 1 to 5 p.m. and in the evenings on Tuesday and Thursday from 6 to 10 p.m.

Pianist Performs

Pianist Leonard Pennario will perform as guest soloist with the San Diego Symphony Orchestra today and Friday in the Civic Theatre with Symphony Music Director Zoltan Rozsnyai conducting.

Tickets are available at the Civic Theatre Box Office and at Metro Ticket Agencies throughout San Diego County.

'Anne Frank' Tonight

The Diary of Anne Frank, the Helix Spring Play will be presented tonight at 7 p.m. and Friday and Saturday at 8 p.m.

Tickets are 50 cents for students and \$1 for adults.

The Diary of Anne Frank is the story of a young Jewish girl in Nazi occupied Germany.

Art Show Opens

A showing of lithographs, etchings, drawings and paintings by San Diego artist Ivan Messenger will open at the Tower Gallery at Serra Museum and Library with a champagne reception Sunday.

The Gallery is open to the public from 10 a.m. to 5 p.m. daily except Monday.

Dr. Rauch Stays Active

KANSAS CITY — Dr. Herman S. Rauch, Spring Valley has been re-elected to active membership in the American Academy of General Practice, the national association of family doctors.

Re-election signifies that the physician has successfully completed 150 hour of accredited postgraduate medical study in the last three years.

Members become eligible for re-election at the end of the third year following their election to membership.

The Academy, the country's second largest national medical association, is the only national medical group that requires members to keep up with medical progress through continuing education.

The Academy, founded in 1947 and headquartered in Kansas City, Mo., has been instrumental in the establishment of a new primary medical specialty in family practice.

The new specialty is expected to increase the numbers of family physicians available to serve the public in the future.

The Academy's postgraduate education program is the foundation of eligibility for family doctors now in practice who apply for certification in the new specialty.

Learn Spanish the Easy Way

Hardison's Telespanish

By JAMES HARDISON

How does one ask for help in Spanish? Is there such a word as "help" that could be used in emergencies? Also how does one say "I feel fine."

There are two principal words which mean "help." They are "ayuda" and "auxilio." When in distress, either one or both may be used. For most English-speaking people "ayuda" is the easiest of the two words to learn as it is limited to three syllables and is pronounced "ah-YOO-thah."

"Auxilio," pronounced "ah-ooh-SEE-jee-oh" takes a little longer to say. So when in distress it may be better to say "Ayuda!"

Another form of "ayuda" is more specific. If you have been driving along the road and find that your car has a flat tire you might say "Ayudame, por favor," to a potential helper. "Por favor" (please) is

always more courteous to say with a request and tends to create a better response.

We would translate "I feel fine," into "Me siento bien." In the question form we may say "Como se siente usted?" for "How do you feel?" When talking to a child or a loved one the question would be changed to the familiar form "Como te sientes?"

Practice phrases listed below contain various forms of "ayuda" and "sentirse." You may wish to learn them with the aid of the automatic voice that says them for you when you dial 276-2762.

IMPORTANT PHRASES:
Say "Como te sientes?" (KOH-moh teh see-EHN-tehs) for "How do you feel?"
Say "Me siento muy bien." (meh see-EHN-toh MOO-ee bee-EHN) for "I feel very well."

USEFUL PHRASES:
Say "Como se siente el?" (KOH-moh seh see-EHN-th EHL) for "How does he feel?"
Say "Se siente bien." (seh see-EHN-teh bee-EHN) for "He feels well."

Scout Fair Tickets To Go On Sale

Mothers of Scouts in San Diego County don't have to worry about what their sons will be doing during Easter vacation — they'll be selling tickets to the 1970 Scout Fair, scheduled for May 9 at the Del Mar Fairgrounds.

Scout Fair tickets will be distributed to troop leaders throughout the county at ten district rallies Friday, and Scouts will begin selling on Saturday.

Tickets for the one-day fair are \$1. Children under 13 years of age, accompanied by an adult, are admitted without charge.

Cub, Boy and Explorer Scouts throughout the county hope to sell enough tickets to match last year's record attendance of 60,000. For outstanding ticket sales Scouts win Scout Bucks which can be used to purchase Scout equipment, or go to camp.

Purpose of the fair, according to General Chairman Barry P. Knudsen, is to acquaint the public with scouting through displays and demonstrations and to provide one annual fund-raising opportunity for all county scouts.

Diane Parker Korea-Bound

RIVERSIDE — Students selected to represent the La Sierra Campus of Loma Linda University in the 1970-1971 overseas mission program passed through a rigid screening that included psychological testing as well as evaluations by their peers, according to Tracy R. Teele, dean of students.

Among them is Diane Parker, daughter of Mr. and Mrs. Richard E. Parker, 3476 Citrus st. in Lemon Grove. She is bound for Korea.

Ability and willingness of the would-be missionaries to pay their own way were not the important considerations made in the selection process. A Student Mission Board consisting of student and faculty members examined candidates' character, over-all abilities, willingness to pledge a return to Loma Linda University when they resume college work, and standing among their fellow students.

Vitality important, according to Teele, was the peer judgment — the evaluation made by fellow students about whether applicants were considered to be representative of the Loma Linda University missionary program.

The selection process included interviews by staff members of the board. The psychological test passed by the 25 successful candidates as part of the screening is the Minnesota Personality Profile test.

THE PHONE BOOTH

Probably some of the most amusing on-the-job incidents reported by telephone employees come from installers. While dogs are traditionally the bane of postmen, they rarely encounter an alligator or elephant. Not so with the installers, who are trained and equipped to put in and maintain telephones just about anywhere.

One Bell System installer, for example, was confronted by a five foot alligator in the basement of a customer's home. ("Just a pet," the owner blithely explained.) Another installer had to fight off the affectionate attentions of 15 dogs which a customer was keeping in a 2 room flat. And then there's the installer who found himself trapped in the equipment room of a sports arena by an elephant who wouldn't budge from the doorway. The tales are endless, but such incidents are part of the job for these hard-working men—who'll face just about anything to bring you good telephone service.

You may be filling out a new 1040 income tax form this year that combines the old 1040 and 1040A forms. If you have a tax question, look in the white pages of your phone book under "United States Government, Internal Revenue Service" to find the number of your nearest office.

With movie star Lee Marvin as host-narrator, the Bell System will present "It Couldn't Be Done," a color television special paying tribute to American "builders of the impossible." Air date is Thursday, April 2. Check your newspaper for time and station.

The program will salute the people who achieved such projects as Mt. Rushmore Memorial, the Panama Canal, Golden Gate Bridge and Holland Tunnel. Musical accompaniment will be provided by The Fifth Dimension.

Billy Joe Near 60'

Once he began competition, Mount Miguel's Billy Joe Winchester wasted no time in assuming the lead among area weight-throwers.

His debut delayed several weeks because of wrestling, and rain, Winchester had only to wait until his second throw of competition before he popped the shot put to 59.4, far and away the best mark this season.

Winchester's debut also served notice that he's in for big improvement. He started last year throwing 54 feet.

Billy Joe's best of 62.2% last year was the best ever by an area junior and left him second on the all-time list, behind San Diego's Pete Shmuck's 64.11.

The Mount Miguel athlete also threw the discus 157.5, taking the county lead in that event. He has a best of 180-foot, recorded last year.

Miguel won all but five events in routing Grossmont in a rain-delayed meet Wednesday afternoon.

Junior John Slater jumped 6-2 to emerge as a bright prospect in that event, vaulting Rex Lowery cleared 13-feet, and John Hook led a sweep of the 100 in :10.2.

Sports Beat

DEBUT — Billy Joe Winchester made his first track appearance this season a noteworthy one. He tossed the shot 59 feet, four inches, best mark in the county this year. The mark came in a dual meet with Grossmont March 11.

JAY CEE RELAYS

Helix Spikesters Win Large-Schools Division

Helix, behind a pair of winning relay teams, and two individual event winners, took first place in the large school division of the Jay Cee Relays Saturday.

The Highlanders scored 61 points to out-score second-place Oceanside, with 48 points.

Coach Mike Muirhead's team was led by the distance medley relay crew, who turned the distance in 10:27.6, best time of the day.

The quartet was made up of McDonald, 440; Bob Bishop, 880; Dennis Rodgers, 1320 and Ed Mendoza, mile.

Mendoza's anchor mile was clocked unofficially in under 4:19, the fastest four laps by any San Diego prep this season.

The Helix crew finished almost four seconds ahead of a much-heralded Clairemont team's time in another division.

Walton Still Making News

Helix' Bill Walton, the star seven-foot center, is making all kinds of news these days.

Locally, the prep great was named to the all-Grossmont League basketball team and was honored as the player of the year.

That foursome, anchored by standout miler David Harper, ran 10:31.5 with Harper doing a 4:21.

Another quartet of Pitt, Raney, Moore and Robin Schultz was the winner in the two-mile relay, each runner covering a half-mile. Their time was 8:16.2, fastest of the four sections.

Hurdler Art Evans ran a :15.0 flight of hurdles, to win the large school race. Evans' time equaled Mar Vista's Valley Coleman, recorded in the medium schools' race.

And vaulter Rick Schultz had the best clearance of the day, a 13-6 win. Schultz was pressured to clear the height, as second and third placers both made 13-feet.

Two teammates cleared 12-6 in that event.

Helix only placed in one other relay, getting fourth in a fast 880 relay.

John Landis was fifth in a swift 100-yards, and Rich Stump was second in a quick mile run.

Afield, Gunnars Valkirs was runner-up in the shot and discus, while Rick Rhoads placed in both. Dick Comber was third in the platter event.

Mike Mahaffey was fourth in the high-jump, while Dean Jacobs was second in the long jump.

Mount Miguel's tracksters made fourth in the same division as Helix, scoring 42

points behind third-placer Kearny's 44.

Matador relay teams were fourth in the sprint medley, fourth in the two-mile, second in the 440 and fifth in the mile events.

Individually, Billy Joe Winchester was a double winner, putting the shot 57-5/8, and spinning the discus 163-6.

Billy Joe's discus mark is the best so far this season in San Diego.

Rex Lowery and Ross Ellis were third and fourth in the vault, doing 13-feet and 12-6.

On the track, Miguel got points from John Hook, 3rd in the 100, and Joe Stubbs, fourth in the mile.

Monte Vista competed in the intermediate division of the meet and scored 27 1/2 points for sixth. Morse won it with 55 points.

Best track effort for the Monarchs was a second in the two-mile relay, with Bill Thompson anchoring. Clairemont won that race.

Only other points on the track came from a fourth-place 440-relay team.

Five Monarchs placed in field events, however. Gary Earle cleared 6-1 for third in the high-jump, and Royal Dier was fourth in the long jump.

Monarchs were also third in the pole vault, fourth in the shot put, and second in the discus.

Baseball Writers Tap S. M. Handleman

SAN DIEGO — Anyone with the name Stanley Myron Handleman has got to be funny.

And he is. Stanley Myron Handleman (That's my stage name," he claims, "My real name is Clark Williams.") will be the featured entertainer April 6, the night of the San Diego Chapter Baseball Writers Association of America second annual dinner.

Dinner will begin at 7:30 p.m. in the Gold Room of the Kona Kai Club and Handleman will provide the laughs afterwards.

Master of ceremonies for the program will be "Laugh-In" announcer Gary Owens. Other guests will be actor Robert Young, of "Father Knows Best" fame and now seen weekly on ABC-TV's "Marcus Welby, M.D." series, and National League umpire Tom Gorman — who'll be out to challenge Handleman and Owens for some of the laughs.

San Diego Padre players will be on hand, and many of them will be familiar to San Diego baseball fans. Last year at this time, the same couldn't be said.

The San Diego baseball writers will present a "rookie of the year" award to one of the Padres for his initial big league efforts in 1969. Another award, "Most valuable player," will be presented by the Union-Tribune Publishing Company.

Call Ron Roach or Rick Smith at 234-7111 for ticket reservations. Tickets are on sale for \$20 each and tables, accommodating 10 persons, are available for \$200.

BILL WALTON

Walton's presence on the team was no surprise after he led Helix to a record-smashing season. Teammate Mike Dupree joined Walton on the first team, while Monte Vista's Jim Bristol was also tabbed.

The remainder of the team included Santana's Kyle Hypes and El Cajon's Dean Owens.

Helix' Mike Honz and Monte Vista's Bill Belander were among the second-team choices. Belander was a first-team last year.

El Capitan's Steve Vickery, Granite Hills' Tim Doerr and Grossmont's Mark Wilde rounded out the second squad.

Walton, meanwhile, was picked as one of the top 10 high-school players in the county, outside of Pennsylvania.

The senior, besieged by offers from colleges, was named to an all-star team that annually plays a team of Pennsylvania prepsters.

In that game, Walton will go one-on-one with Tom McMillen, a 6-11 prep tabbed by Sports Illustrated as the best high school basketball player in the country.

Walton, meanwhile, is keeping in shape, playing with a pickup team comprised mostly of ex-college players. So far, he's led a San Diego team to a win over a similarly-comprised Los Angeles team, leading the scoring.

Honorable mention for the all league team included John Slater and Tom Young, Mount Miguel; Randy Madsen and Dan Coleman, Helix; and Gary Earle and Dan Heien, Monte Vista.

CHUCKIN' SPORTS

When a sports writer moves into a new community there is always a very wonderful period of adjustment. A period when one begins to feel accepted.

It shows when the people start coming to you with interesting sports stories.

That was this editor's experience this past week.

It started with a phone call from Jim Wilson of the Mc Mahan Furniture Store. Jim invited me to attend a meeting of the Lemon Grove Sportsmen's Golf Club.

Unfortunately it happened that the meeting was a Wednesday night and that is a night set aside for study in the Curtis household so I was unable to attend.

I asked Jim for details and learned plenty.

The facts I learned are something like this.

For several years a number of area golf enthusiasts played informal yearly golf tournaments.

In April, 1968, 26 of them formed the Lemon Grove Sportsman's Golf Club. Since then the group has grown until today it numbers 100 enthusiastic golfers.

The membership comes from all sections of the county with some coming from as far away as Escondido.

Each month the club stages a golf tournament at one of the fine golf courses in the area. These tournaments are attended by an average of 90 percent of the members.

In addition to the monthly tournaments the club sponsors other events.

They do not neglect their wives. One of the regular annual events is a Golf Widow's picnic. It features and pitch and putt tournament for the ladies.

This summer they are planning a tournament for their sons and daughters.

The big social function of the year is an awards banquet and dance held at the end of each club year.

This year the banquet will be held April 25 at the Chula Vista Golf Course.

Wednesday night was an election night for the club.

Bill G. Oyos was re-elected to the office of president. Tony Janus was elected secretary and Bob Castellanos treasurer.

Other officers are: Alex Alvarez, vice-president; Louie Lieras, tournament director; Frank Oyos, membership director; and Chuy Lieras, Manuel Cesena and Ben Santos, directors.

Sincere congratulations to the officers and members of the Lemon Grove Sportsman's Golf Club and their charming golf widows.

Golf is one of the finest participation sports we have come across and such a club is in full agreement with the national trend to better physical fitness.

It is our sincere hope that the members of this fine group will keep the Lemon Grove Review and the Spring Valley Bulletin informed of their activities so we in turn can pass the information on to the people of the area.

Edwin Miller Joins Race For District Attorney

Attorney Edwin L. Miller, a partner in the law firm of Holt, Rhoades, Hollywood and Miller, is a candidate for the office of district attorney of San Diego County. He pledged to give top priority to the investigation of organized crime and consumer fraud in the county, as he made his announcement.

Miller, 44, was San Diego's first U. S. attorney — a post he held from 1966 to 1969 by presidential appointment with ratification by the U. S. Senate.

During that period, his office was responsible for the prosecution of more criminal cases than any other federal district in the nation, he said.

One of Miller's most significant accomplishments was the initial investigation of alleged bribery and corruption involving members of the San Diego Police Department.

At Miller's suggestion, the investigation became a joint effort by federal and state officials and was the first such arrangement of its kind. This

eral highway project. Another significant investigation by Miller led to the breakup of the largest dope smuggling gang on the West Coast and to the conviction of its members.

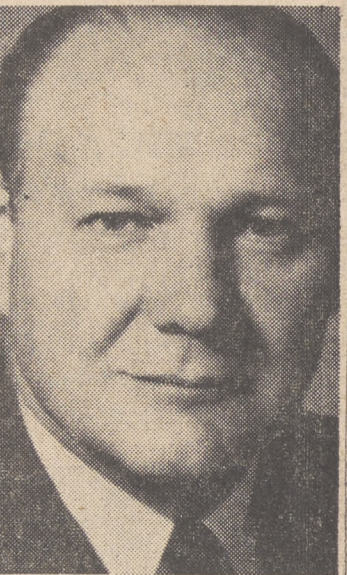

As U. S. attorney, Miller served as chairman of the Critical Urban Problems Committee of the Federal Executive Assn. of S. D. A major project of the committee was developing the use of federal facilities for the training of disadvantaged people.

Prior to his federal appointment, Miller spent seven years in the San Diego city attorney's office — originally as a deputy prosecutor, and later as the assistant city attorney.

He represented the city in utility rate hearings and court proceedings involving San Diego Gas & Electric Company, Pacific Telephone Company, San Diego Transit System, and El Paso Natural Gas Company.

As a result of these actions, more than \$20 million was returned to local rate payers, he said.

Miller is a graduate of Dartmouth College and is presently president of the S.D. Chapter of the Federal Bar Assn.

EDWIN L. MILLER

probe resulted in the conviction of bookmakers who had previously avoided prosecution in state courts, he said.

Miller also was responsible for the prosecution and conviction of James (Jimmy the Weasel) Fratianno who was reputed to be a West Coast Mafia enforcer, he said. Fratianno was convicted of conspiracy to evade minimum wage laws pertaining to a fed-

Fight Narcotics In School Says Sheriff's Duffy

SAN DIEGO — The narcotics problem among San Diego young people must be combated in the schools, according to Sheriff's Capt. John E. Duffy, and candidate for Sheriff.

Addressing a recent gathering of 1,000 campaign supporters at the Town and Country Convention Center, Duffy outlined the program he will implement under Section 26600 of the California Government Code.

The section, entitled Preservation of Peace, provides an opportunity to sponsor, supervise or participate in any project of crime prevention or rehabilitation to suppress delinquency.

Duffy's plan calls for Sheriff's Deputies — acting in a non-enforcement capacity — to be put in the schools to establish a rapport with young people.

This especially-trained task force of juvenile officers will counsel students on drug abuse and instill in them an understanding and respect for the position of law enforcement in our society.

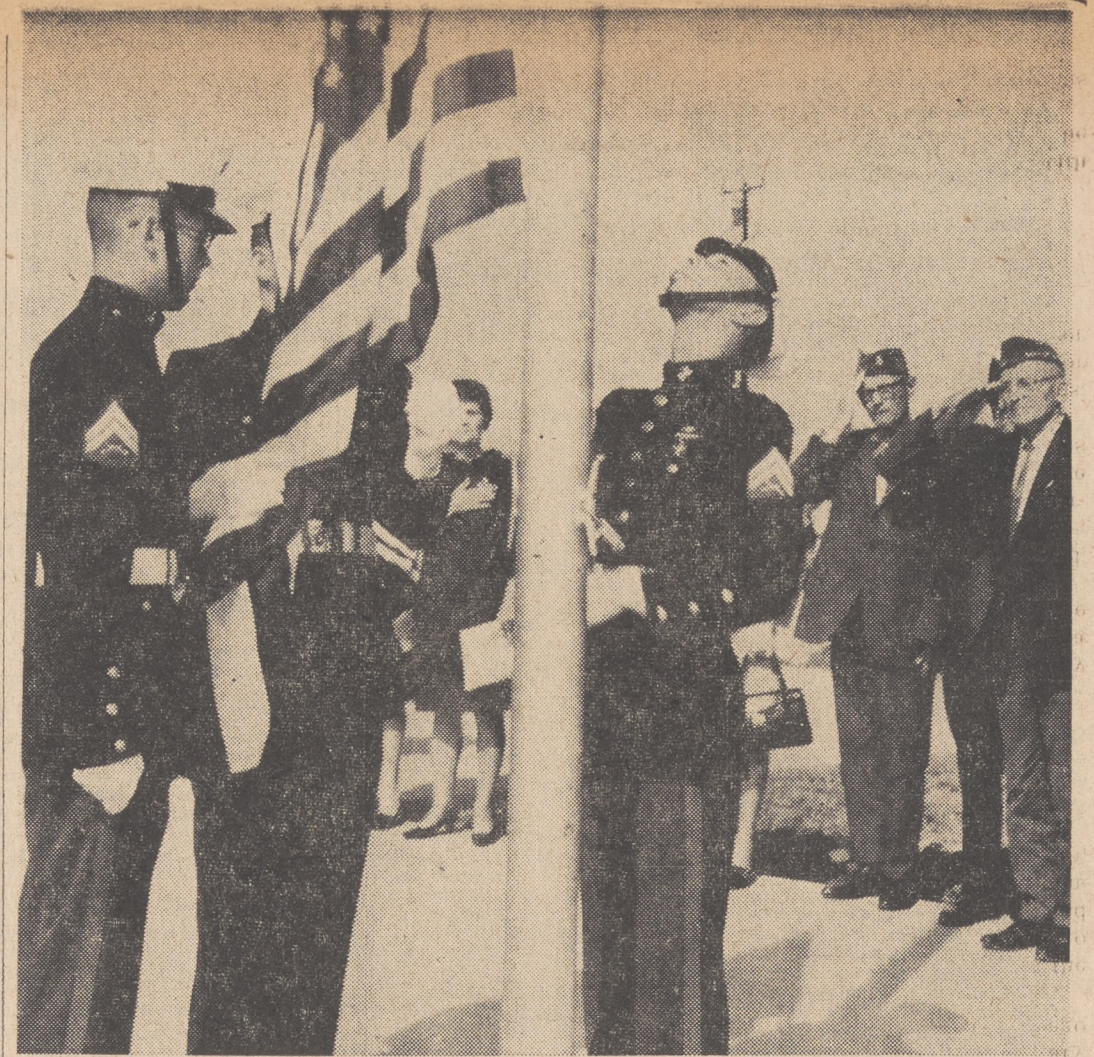

Duffy a veteran of 17 years in the Sheriff's Department, is acutely aware of the problems of today's youth and considers that area a major campaign issue.

Luau Planned For George Walker Smith

But to be 100 percent effective," Van Deerlin said, "the bureau would have to accumulate samples from every pill press, legitimate and clandestine, in the country, a practical impossibility." He said capsules pose an even stiffer challenge to investigators, since they lack the minute markings left by punches and dies on all tablets.

He said coded labels would both facilitate identification and discourage counterfeiters seeking to capitalize on the reputations of legitimate drug manufacturers. The Narcotics Bureau needs complete data on the origin of illicit drugs to provide evidence for trials detect trends in smuggling.

Guest speaker was John Annis, State Traffic Officer of the Information and Educational department of the California Highway Patrol. Officer Annis is a Lemon Grove resident and has been a patrolman for 19 years. His subject was "Slow Speed Accidents." A film showing how injuries and death can result from this type of driving was shown.

Bills By Van Deerlin Tighten Drug Abuse Noose

WASHINGTON — Two bills designed to help the federal government crack down on the soaring traffic in dangerous drugs were introduced by Rep. Lionel Van Deerlin, D-San Diego.

One measure would require that prescription drugs be distinctly marked and the other would empower the Justice Department to regulate the export of amphetamines and barbiturates.

Both proposals were referred to Van Deerlin's own committee, House Commerce.

The San Diego Congressman said he was prompted to offer the drug labeling bill by reports of the problems faced by the Bureau of Narcotics and Dangerous Drugs in attempting to identify counterfeit tablets and capsules.

In the bureau's Washington laboratory, drugs that have been seized are subjected to basically the same kind of ballistics tests as rifle bullets to identify their source.

Van Deerlin learned this system works about 80 percent of the time, because the presses that stamp out tablets leave unique "signatures" — microscopic imprints that can come from only one press.

But to be 100 percent effective," Van Deerlin said, "the bureau would have to accumulate samples from every pill press, legitimate and clandestine, in the country, a practical impossibility." He said capsules pose an even stiffer challenge to investigators, since they lack the minute markings left by punches and dies on all tablets.

He said coded labels would both facilitate identification and discourage counterfeiters seeking to capitalize on the reputations of legitimate drug manufacturers. The Narcotics Bureau needs complete data on the origin of illicit drugs to provide evidence for trials detect trends in smuggling.

Fat Off In 90 Minutes

A demonstration of a method of losing inches without pills, strenuous exercise or rigid dieting was demonstrated last week at a Pt. Loma Salon.

Ada Smyle, the salon owner, of 2824 Canon st., said that fat is compressed from the body and into the bloodstream by saturated cloth tapes wrapped around the part of the body to be reduced.

Patron then dons a jumpsuit and reclines for 90 minutes.

The system was said to have been developed during WWII when medical officers used compresses to reduce swelling in wounded G.I's.

Five inches off in five sessions or no charge is the policy of nationally franchised firm called Trim-A-Way. mg.

THE DIMMER VIEW (Cont.)

reviewed by the subdivision review committee.

Daily was still disturbed. "A fellow is apt to run up against some knuckle-head with thick glasses who sticks right to the letter of the law," he complained.

A more nearly perfect description of a bureaucrat has never been made.
